Copy of NEW R10 Near Term Decisions and Major Issues 2017 WQS.xlsx

Hey Cami,
Here are my WQS ones. I ended up slightly tweaking the ID and WA write-ups, which are also under the “Major Issues” tab. So that means there are different write-ups for the same issue, but I figured that’s okay since I viewed the “Near Term Decisions” exercise as requiring more details. Re “Pending Decision,” I interpreted that more broadly – i.e., beyond Michelle and Dan -- so I don’t know if that’s correct. Let me know if you have any questions, thanks.

Subject: Upcoming Issues Template

Happy Spring! I have saved the template that you are forbidden access to ☺ and have attached it to this email. I will coordinate and combine all of your input—please do me a favor by highlighting in the spreadsheet what you have added to it. We are supposed to have this done by COB today so if I could get your input by 4:30 today, that would be helpful for me. There are two tabs in this spreadsheet—although I think you could get away with only populating the Near Term Decision one.
Thanks! Let me know if I can be of other help on this.
